Anchorage, AK 99519**

Registration: 8:00 am – 8:15 am

Workshop Program: 8:15 am – 4:30 pm

Luncheon provided: 12:00 pm – 1:00 pm

Presenters:

**Paul Brandon, CPA, FM Strand & Associates
James Easton, Watterson Construction Company
Lisa Vandergriff**

Upon completing this one-day workshop, you will be able to:

- Explain the core points of revenue recognition
- Discuss the importance of a job cost system
- Calculate earned revenue
- Identify what a construction company expects from its financial manager.

“The Basics” begins with an overview of the construction industry, then moves from the contract life cycle to job costing issues to financial reporting concerns to issues and processes unique to the construction industry.

Along the way, you'll learn more about your role & responsibilities as your company's construction financial manager and receive the latest industry and benchmarking information to help you in your daily work.

“The Basics” is more than just a textbook lecture.

The workshop uses a sample contractor, a variety of problems & several exercises that allow you to evaluate real-life situations.

As a participant, you are encouraged to share your own perspectives and to trade “war stories” during the case studies and general discussion segments of the program. You'll come away with a deeper and broader understanding of construction accounting and financial management.

This is a Group-Live Course at the BASIC Level. No prerequisites or advanced preparation is required.
